Directors' Report

The Directors have pleasure in presenting their report together with the audited financial statements of the Group and of the Company for the financial year ended 31 March 2009.

Principal Activities

The principal activity of the Company is investment holding.

The principal activities of the subsidiaries are timber processing, log timber extraction and investment holding. During the financial year, an indirect subsidiary commenced vessel chartering services to oil and gas industry.

There have been no other significant changes in the nature of the principal activities during the financial year.

Results

	Group RM	Company RM
Profit for the year	10,243,107	6,192,679
Attributable to:		
Equity holders of the Company	9,866,161	6,192,679
Minority interests	376,946	-
	10,243,107	6,192,679

There were no material transfers to or from reserves or provisions during the financial year other than as disclosed in the financial statements.

In the opinion of the Directors, the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature.

Dividends

The amount of dividend paid by the Company since 31 March 2008 was as follows:

	RM
In respect of the financial year ended 31 March 2008 as reported in the Directors' report of that year:	
Final tax exempt dividend of 4% on 148,871,400 ordinary shares (netted off 4,111,900 treasury shares), declared on 28 September 2008 and paid on 30 October 2008	5,954,856

At the forthcoming Annual General Meeting, a final tax exempt dividend of 4% in respect of the financial year ended 31 March 2009 will be proposed for shareholders' approval. The financial statements for the current financial year do not reflect this proposed dividend. Such dividend, if approved by the shareholders, will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 March 2010.

The total consideration paid for the repurchase including transaction costs was RM3,607,545. The shares repurchased are being held as treasury shares in accordance with Section 67A of the Companies Act, 1965.

As at 31 March 2009, the Company held as treasury shares a total of 8,679,000 of its 152,983,300 issued ordinary shares. Such treasury shares are held at a carrying amount of RM6,395,530 and further relevant details are disclosed in Note 21 to the financial statements.

Employee Share Options Scheme

The Tekala Corporation Berhad Employee Share Options Scheme ("ESOS") for eligible employees and Directors of the Company and its subsidiaries was approved by the shareholders at the Extraordinary General Meeting held on 30 September 2004. The ESOS became effective on 22 November 2004 when the last of the requisite approvals was obtained and is valid for a period of five (5) years expiring on 21 November 2009.

The salient features and other terms of the ESOS are disclosed in Note 26 to the financial statements.

There were no options granted during the financial year.

Other Statutory Information

(a) Before the income statements and balance sheets of the Group and of the Company were made out, the Directors took reasonable steps:

 (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that there were no known bad debts and that adequate provision had been made for doubtful debts; and

 (ii) to ensure that any current assets which were unlikely to realise their value as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.

(b) At the date of this report, the Directors are not aware of any circumstances which would render:

 (i) it necessary to write off any bad debts or the amount of the provision for doubtful debts inadequate to any substantial extent; and

 (ii) the values attributed to the current assets in the financial statements of the Group and of the Company misleading.

(c) At the date of this report, the Directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

(d) At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

Other Statutory Information (Cont'd.)

(e) As at the date of this report, there does not exist:

  (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or

  (ii) any contingent liability of the Group or of the Company which has arisen since the end of the financial year.

(f) In the opinion of the Directors:

  (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations when they fall due; and

  (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

Significant Event

During the financial year, the Company through its wholly owned subsidiary Gerak Armada Sdn. Bhd. subscribed shares in a newly incorporated subsidiary, Offshore Constructor (Labuan) Ltd. as disclosed in Note 15 to the financial statements.

Independent auditors' report to the members of
TEKALA CORPORATION BERHAD
(Incorporated in Malaysia)

Report on the financial statements

We have audited the financial statements of Tekala Corporation Berhad, which comprise the balance sheets as at 31 March 2009 of the Group and of the Company, and the income statements, statements of changes in equity and cash flow statements of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 12 to 65.

Directors' responsibility for the financial statements

The Directors of the Company are responsible for the preparation and fair presentation of these financial statements in accordance with Financial Reporting Standards and the Companies Act, 1965 in Malaysia. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with Financial Reporting Standards and the Companies Act, 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as at 31 March 2009 and of their financial performance and cash flows for the year then ended.

Report on other legal and regulatory requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

(a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries have been properly kept in accordance with the provisions of the Act.

(b) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.

(c) The auditors' reports on the financial statements of the subsidiaries were not subject to any qualification and did not include any comment required to be made under Section 174(3) of the Act.

Other matters

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

The accompanying notes form an integral part of the financial statements.

1. Corporate Information

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Board of Bursa Malaysia Securities Berhad. The registered office and the principal place at which business is carried out is located at 2nd Floor, Lot 15, Block C, Old Slipway Site, 90000 Sandakan, Sabah.

The principal activity of the Company is investment holding. The principal activities of the subsidiaries are timber processing, log timber extraction and investment holding. During the financial year, an indirect subsidiary commenced vessel chartering services to oil and gas industry. There have been no other significant changes in the nature of the principal activities during the financial year.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the Directors on 23 July 2009.

2. Significant Accounting Policies

2.1 Basis of Preparation

The financial statements comply with the provisions of the Companies Act, 1965 and applicable Financial Reporting Standards in Malaysia. At the beginning of the current financial year, the Group and the Company had adopted the revised FRSs, amendment to FRSs and Interpretations which are mandatory for financial periods beginning on or after 1 July 2007 as described in Note 2.2.

The financial statements of the Group and of the Company have also been prepared on a historical basis except for vessels included within property, plant and equipment of an associate which are measured at their revalued amounts.

The financial statements are presented in Ringgit Malaysia (RM).

2. Significant Accounting Policies (Cont'd.)

2.2 Changes in Accounting Policies and Effects Arising from Adoption of New and Revised FRSs

On 1 April 2008, the Group and the Company adopted the following revised FRSs, amendment to FRSs and Interpretations, where applicable:

FRS 107: Cash Flow Statements
FRS 111: Construction Contracts
FRS 112: Income Taxes
FRS 118: Revenue
FRS 120: Accounting for Government Grants and Disclosure of Government Assistance
FRS 134: Interim Financial Reporting
FRS 137: Provisions, Contingent Liabilities and Contingent Assets
Amendment to FRS 121: The Effects of Changes in Foreign Exchange Rates - Net Investment in a Foreign Operation
IC Interpretation 1: Changes in Existing Decommissioning, Restoration and Similar Liabilities
IC Interpretation 2: Members' Shares in Co-operative Entities and Similar Instruments
IC Interpretation 5: Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds
IC Interpretation 6: Liabilities arising from Participating in a Specific Market - Waste Electrical and Electronic Equipment
IC Interpretation 7: Applying the Restatement Approach under FRS 129 *Financial Reporting in Hyperinflationary Economies*
IC Interpretation 8: Scope of FRS 2

The applicable revised FRSs, amendment to FRSs and Interpretations above do not have any significant impact on the financial statements of the Group and the Company.

2. Significant Accounting Policies (Cont'd.)

2.3 Standards and Interpretations Issued but Not Yet Effective

At the date of authorisation of these financial statements, the following new FRSs and Interpretations were issued but not yet effective and have not been applied by the Group and the Company:

FRSs, Amendment to FRSs and Interpretations	**Effective for financial periods beginning on or after**
FRS 7: Financial Instruments: Disclosures	1 January 2010
FRS 8: Operating Segments	1 July 2009
FRS139: Financial Instruments: Recognition and Measurement	1 January 2010
IC Interpretation 9: Reassessment of Embedded Derivatives	1 January 2010
IC Interpretation 10: Interim Financial Reporting and Impairment	1 January 2010

The new FRS and Interpretations above are expected to have no significant impact on the financial statements of the Group and the Company upon their initial application except for the changes in disclosures arising from the adoption of FRS 7 and FRS 8.

The Group and the Company are exempted from disclosing the possible impact if any, to the financial statements upon the initial application of FRS 139.

2.4 Summary of Significant Accounting Policies

(a) Subsidiaries and Basis of Consolidation

(i) Subsidiaries

Subsidiaries are entities over which the Group has the ability to control the financial and operating policies so as to obtain benefits from their activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

In the Company's separate financial statements, investments in subsidiaries are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in income statement.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(a) Subsidiaries and Basis of Consolidation (Cont'd.)

(ii) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the balance sheet date. The financial statements of the subsidiaries are prepared for the same reporting date as the Company.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. In preparing the consolidated financial statements, intragroup balances, transactions and unrealised gains or losses are eliminated in full. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances.

Acquisitions of subsidiaries are accounted for using the purchase method. The purchase method of accounting involves allocating the cost of the acquisition to the fair value of the assets acquired and liabilities and contingent liabilities assumed at the date of acquisition. The cost of an acquisition is measured as the aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued, plus any costs directly attributable to the acquisition.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill. Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in income statement.

Minority interests represent the portion of profit or loss and net assets in subsidiaries not held by the Group. It is measured at the minorities' share of the fair value of the subsidiaries' identifiable assets and liabilities at the acquisition date and the minorities' share of changes in the subsidiaries' equity since then.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(b) Associates

Associates are entities in which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not in control or joint control over those policies.

Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting. Under the equity method, the investment in associate is carried in the consolidated balance sheet at cost adjusted for post-acquisition changes in the Group's share of net assets of the associate. The Group's share of the net profit or loss of the associate is recognised in the consolidated income statement. Where there has been a change recognised directly in the equity of the associate, the Group recognises its share of such changes. In applying the equity method, unrealised gains and losses on transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate. After application of the equity method, the Group determines whether it is necessary to recognise any additional impairment loss with respect to the Group's net investment in the associate. The associate is equity accounted for from the date the Group obtains significant influence until the date the Group ceases to have significant influence over the associate.

Goodwill relating to an associate is included in the carrying amount of the investment and is not amortised. Any excess of the Group's share of the net fair value of the associate's identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment and is instead included as income in the determination of the Group's share of the associate's income statement in the period in which the investment is acquired.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

The most recent available audited financial statements of the associates are used by the Group in applying the equity method. Where the dates of the audited financial statements used are not coterminous with those of the Group, the share of results is arrived at from the last audited financial statements available and management financial statements to the end of the accounting period. Uniform accounting policies are adopted for like transactions and events in similar circumstances.

In the Company's separate financial statements, investments in associates are stated at cost less impairment losses.

On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in income statement.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(c) Intangible Assets

(i) Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

(ii) Other Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair values as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised on a straight-line basis over the estimated economic useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each balance sheet date.

Intangible assets with indefinite useful lives are not amortised but tested for impairment annually or more frequently if the events or changes in circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level. The useful life of an intangible asset with an indefinite life is also reviewed annually to determine whether the useful life assessment continues to be supportable.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(d) Property, Plant and Equipment, and Depreciation

All items of property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation of property, plant and equipment is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, at the following annual rates:

	%
Vessel	3.33
Buildings	5
Plant, machinery and heavy equipment	10 - 20
Motor vehicles	20
Furniture, fittings and equipment	10 - 20

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any and the net carrying amount is recognised in income statement.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(e) Impairment of Non-financial Assets

The carrying amounts of assets, other than inventories, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss.

For goodwill, intangible assets that have an indefinite useful life and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date or more frequently when indicators of impairment are identified.

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs to. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

An impairment loss is recognised in income statement in the period in which it arises.

Impairment loss on goodwill is not reversed in a subsequent period. An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in income statement.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(f) Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost includes the purchase price of inventories acquired and other attributable costs in bringing the inventories to their present location and condition.

Cost of spare parts and consumables is computed using the weighted average method while cost of camp stores and spares is computed using the first in, first out basis.

Cost of work-in-progress and finished goods for wood products are computed using the weighted average method. Cost includes direct materials, direct labour, direct overheads and variable production overheads.

Cost of logging work-in-progress is determined using the weighted average method. The cost includes direct labour, materials and other direct expenses.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

(g) Financial Instruments

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as assets, liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends and gains and losses relating to a financial instrument are reported as expense or income. Distributions to holders of financial instruments classified as equity are recognised directly in equity. Financial assets and liabilities are offset against each other when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

(i) Cash and cash equivalents

For the purposes of the cash flow statements, cash and cash equivalents include cash on hand and at bank, deposit at call and short term highly liquid investments which have an insignificant risk of changes in value.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(g) Financial Instruments (Cont'd.)

(ii) Other non-current investments

Non-current investments other than investments in subsidiaries and associates are stated at cost less impairment losses. On disposal of an investment, the difference between net disposal proceeds and its carrying amount is recognised in income statement.

(iii) Trade receivables

Trade receivables are carried at anticipated realisable values. Bad debts are written off when identified. An estimate is made for doubtful debts based on a review of all outstanding amounts as at the balance sheet date.

(iv) Trade payables

Trade payables are stated at the fair value of the consideration to be paid in the future for goods and services received.

(v) Equity instruments

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

The transaction costs of an equity transaction are accounted for as a deduction from equity, net of tax. Equity transaction costs comprise only those incremental external costs directly attributable to the equity transaction which would otherwise have been avoided.

The consideration paid, including attributable transaction costs on repurchased ordinary shares of the Company that have not been cancelled, are classified as treasury shares and presented as a deduction from equity. No gain or loss is recognised in income statement on the sale, re-issuance or cancellation of treasury shares. When treasury shares are reissued by resale, the difference between the sales consideration and the carrying amount is recognised in equity.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(h) Leases

(i) Classification

A lease is recognised as a finance lease if it transfers substantially to the Group all the risks and rewards incidental to ownership. Leases of land and buildings are classified as operating or finance leases in the same way as leases of other assets and the land and buildings elements of a lease of land and buildings are considered separately for the purposes of lease classification. All leases that do not transfer substantially all the risks and rewards are classified as operating leases, with the following exceptions:

- Property held under operating leases that would otherwise meet the definition of an investment property is classified as an investment property on a property-by-property basis and, if classified as investment property, is accounted for as if held under a finance lease; and

- Land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease.

(ii) Finance Leases - the Group as Lessee

Assets acquired by way of hire purchase or finance leases are stated at an amount equal to the lower of their fair values and the present value of the minimum lease payments at the inception of the leases, less accumulated depreciation and impairment losses. The corresponding liability is included in the balance sheet as borrowings. In calculating the present value of the minimum lease payments, the discount factor used is the interest rate implicit in the lease, when it is practicable to determine; otherwise, the Company's incremental borrowing rate is used. Any initial direct costs are also added to the carrying amount of such assets.

Lease payments are apportioned between the finance costs and the reduction of the outstanding liability. Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised in the income statement over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

The depreciation policy for leased assets is in accordance with that for depreciable property, plant and equipment as described in Note 2.4(d).

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(h) Leases (Cont'd.)

(iii) Operating Leases - the Group as Lessee

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

In the case of a lease of land and buildings, the minimum lease payments or the up-front payments made are allocated, whenever necessary, between the land and the buildings elements in proportion to the relative fair values for leasehold interests in the land element and buildings element of the lease at the inception of the lease. The up-front payment represents prepaid lease payments and are amortised on a straight-line basis over the lease term.

(iv) Operating Leases - the Group as Lessor

Assets leased out under operating leases are presented on the balance sheets according to the nature of the assets. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(i) Income Tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted at the balance sheet date.

Deferred tax is provided for, using the liability method. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax is not recognised if the temporary difference arises from goodwill or negative goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is recognised as income or an expense and included in the profit or loss for the period, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also recognised directly in equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or the amount of any excess of the acquirer's interest is the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of the combination.

(j) Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

2. Significant Accounting Policies (Cont'd.)

2.4 Summary of Significant Accounting Policies (Cont'd.)

(k) Employee Benefits

(i) Short Term Benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined Contribution Plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in the profit or loss as incurred. As required by law, companies in Malaysia make such contributions to the Employees Provident Fund.

(iii) Share-based Compensation

The Tekala Corporation Berhad Employee Share Options Scheme ("ESOS"), an equity-settled, share-based compensation plan, allows the Group's employees to acquire ordinary shares of the Company. The total fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in the share option reserve within equity over the vesting period and taking into account the probability that the options will vest. The fair value of share options is measured at grant date, taking into account, if any, the market vesting conditions upon which the options were granted but excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable on vesting date.

At each balance sheet date, the Group revises its estimates of the number of options that are expected to become exercisable on vesting date. It recognises the impact of the revision of original estimates, if any, in the income statement, and a corresponding adjustment to equity over the remaining vesting period. The equity amount is recognised in the share option reserve until the option is exercised, upon which it will be transferred to share premium, or until the option expires, upon which it will be transferred directly to retained earnings.

The proceeds received net of any directly attributable transaction costs are credited to equity when the options are exercised.

2.4 Summary of Significant Accounting Policies (Cont'd.)

(l) Foreign Currencies

(i) Functional and Presentation Currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the Company's functional currency.

(ii) Foreign Currency Transactions

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded in the functional currencies using the exchange rates prevailing at the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are translated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are included in income statement for the period.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in income statement for the period except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised directly in equity. Exchange differences arising from such non-monetary items are also recognised directly in equity.

2.4 Summary of Significant Accounting Policies (Cont'd.)

(l) Foreign Currencies (Cont'd.)

(iii) Foreign Operations

The results and financial position of foreign operations that have a functional currency different from the presentation currency (RM) of the consolidated financial statements are translated into RM as follows:

- Assets and liabilities for each income statement are translated at the closing rate prevailing at the balance sheet date;

- Income and expenses for each income statement are translated at average exchange rates for the year, which approximates the exchange rates at the dates of the transactions; and

- All resulting exchange differences are taken to the foreign currency translation reserve within equity.

(m) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Sale of goods

Revenue is recognised upon transfer of significant risks and rewards of ownership to the buyer. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

(ii) Vessel chartering income

Vessel chartering income is recognised upon services rendered.

(iii) Log timber extraction income

Log timber extraction income is recognised upon delivery of log timber to customers.

(iv) Dividend income

Dividend income is recognised when the Group's right to receive payment is established.

2. Significant Accounting Policies (Cont'd.)

2.5 Review of Estimates

The revised FRS 116: Property, Plant and Equipment requires the review of the residual value and remaining useful life of an item of property, plant and equipment at least at each financial year end. The Group reviewed the residual values and the estimated useful lives of all property, plant and equipment. The effects of the reviews are immaterial and no adjustment is made. The effects on future periods are dependent on the review of the residual value and remaining useful life of an item of property, plant and equipment in future periods.

2.6 Significant Accounting Estimates and Judgements

Key Sources of Estimation Uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Depreciation of property, plant and equipment

The cost of plant and machinery is depreciated on a straight-line basis over the assets' useful lives. Management estimates the useful lives of these plant and machinery to be within 5 to 10 years. These are common life expectancies applied in the timber industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

(ii) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses and unabsorbed capital allowances to the extent that it is probable that taxable profit will be available against which the losses and capital allowances can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The total carrying value of recognised tax losses and capital allowances of the Group was RM914,899 (2008: RM1,060,020) and the unrecognised tax losses and capital allowances of the Group was RM19,245,313 (2008: RM17,479,544).

10. Income Tax Expense (Cont'd.)

Domestic income tax is calculated at the Malaysian statutory tax rate of 25% (2008: 26%) of the estimated assessable profit for the year. In the prior year, certain subsidiaries of the Company being Malaysian resident companies with paid-up capital of RM2.5 million or less qualified for the preferential tax rates under Paragraph 2A, Schedule 1 of the Income Tax Act, 1967 as follows:

On the first RM500,000 of chargeable income : 20%
In excess of RM500,000 of chargeable income : 26%

However, pursuant to Paragraph 2B, Schedule 1 of the Income Tax Act, 1967 that was introduced with effect from the year of assessment 2009, these subsidiaries no longer qualify for the above preferential tax rates.

A reconciliation of income tax expense applicable to profit before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Group and of the Company is as follows:

	Group		Company	
	2009 RM	2008 RM	2009 RM	2008 RM

11. Earnings Per Share

(a) Basic

Basic earnings per share amount is calculated by dividing the profit for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares in issue during the financial year, excluding treasury shares held by the Company.

	2009	2008
Profit for the year (RM)	9,866,161	1,139,450
Weighted average number of ordinary shares in issue	147,623,290	149,899,899
Basic earnings per share (sen)	6.68	0.76

(b) Diluted

For the purpose of calculating diluted earnings per share, the profit for the year attributable to ordinary equity holders of the Company and the weighted average number of ordinary shares in issue during the financial year have been adjusted for the dilutive effects of all potential ordinary shares, namely share options granted to employees.

	2009	2008
Profit for the year (RM)	9,866,161	1,139,450
Weighted average number of ordinary shares in issue	147,623,290	149,899,899

Recognised during the year:				
First interim tax exempt dividend for 2007: 2% on 149,617,300 ordinary shares (netted off 2,476,300 treasury share) (2 sen per ordinary share)	-	2,992,346	-	-
Final tax exempt dividend for 2007: 4% on 150,243,200 ordinary shares (netted off 2,740,100 treasury shares) (4 sen per ordinary share)	-	6,009,728	-	6,009,728
Final tax exempt dividend for 2008: 4% on 148,871,400 ordinary shares (netted off 4,111,900 treasury shares) (4 sen per ordinary share)	5,954,856	-	5,954,856	-
	5,954,856	9,002,074	5,954,856	6,009,728

At the forthcoming Annual General Meeting, a final tax exempt dividend of 4% in respect of the financial year ended 31 March 2009 will be proposed for shareholders' approval. The financial statements for the current financial year do not reflect this proposed dividend. Such dividend, if approved by the shareholders, will be accounted for in equity as an appropriation of retained earnings in the financial year ending 31 March 2010.

Acquisition of subsidiary

On 20 February 2009, the Company through its wholly owned subsidiary, Gerak Armada Sdn. Bhd. ("GASB") entered into a Subscription and Shareholders' Agreement ("the Agreement") with Offshore Construction & Engineering Sdn. Bhd., a subsidiary of an associate, and Offshore Constructor (Labuan) Ltd ("OCL") whereby GASB subscribed 4,709 new ordinary shares of USD1.00 each in OCL representing 49.01% of the issued and paid-up share capital at an issue price of USD1,326.71 per share. The subscription of shares in OCL was completed on 23 February 2009. Pursuant to the Agreement, the Company will have the majority number of directors in OCL. The Company also has an indirect interest of 12.75% in OCL through its associate. Therefore, the Company has an effective equity interest in OCL of 61.76% and as a result, the financial statements of OCL have been consolidated in the financial statements of the Group.

The total cost of acquisition is RM22,868,891.

15. Investments in Subsidiaries (Cont'd.)

The acquired subsidiary has contributed the following results to the Group:

	2009 RM
Revenue	2,278,128
Profit for the period	985,672

If the acquisition had occurred on 1 April 2008, the Group revenue and profit for the year would have been RM127,491,670 and RM10,243,107 respectively.

The assets and liabilities arising from the acquisition on 20 February 2009 are as follows:

23. Retained Earnings

Prior to the year of assessment 2008, Malaysian companies adopt the full imputation system. In accordance with the Finance Act 2007 which was gazetted on 28 December 2007, companies shall not be entitled to deduct tax on dividend paid, credited or distributed to its shareholders, and such dividends will be exempted from tax in the hands of the shareholders ("single tier system"). However, there is a transitional period of six years, expiring on 31 December 2013, to allow companies to pay franked dividends to their shareholders under limited circumstances. Companies also have an irrevocable option to disregard the 108 balance and opt to pay dividends under the single tier system. The change in the tax legislation also provides for the 108 balance to be locked-in as at 31 December 2007 in accordance with Section 39 of the Finance Act 2007.

As at 31 March 2009, the Company has tax exempt profits available for distribution of approximately RM44,097,369 (2008: RM43,649,671), subject to the agreement of the Inland Revenue Board.

The Company did not elect for irrevocable option to disregard the 108 balance. Accordingly, during the transitional period, the Company may utilise the credit in the 108 balance as at 31 March 2009 and 2008 to distribute cash dividend payments to ordinary shareholdings as defined under the Finance Act 2007. As at 31 March 2009 and 2008, the Company has sufficient credit in the 108 balance and the balance in the tax exempt income account to distribute dividends out of its entire retained earnings.

26. Employee Benefits - Employee Share Options Scheme ("ESOS")

The ESOS for eligible employees and Directors of the Company and its subsidiaries was approved by the shareholders at the Extraordinary General Meeting held on 30 September 2004. The ESOS became effective on 22 November 2004 and is valid for a period of five (5) years expiring on 21 November 2009.

The salient features of the ESOS are as follows:

(i) The maximum number of new shares which may be subscribed on the exercise of options granted under the ESOS shall not, in aggregate, be more than fifteen per cent (15%) of the total issued and paid-up ordinary share capital of the Company at any point of time during the existence of the scheme;

(ii) The option price for each new share at which the grantee is entitled to subscribe upon exercise of his rights under the option shall be the weighted average of the mean market price of the Company's shares as quoted and shown in the daily official list issued by the Bursa Malaysia for the five (5) market days immediately preceding the date of offer set at a discount if deemed appropriate by the option committee of not more than ten percent (10%) or the par value of the Company's shares, whichever is higher. Notwithstanding this, the option price per share shall in no event be less than the par value of the shares;

(iii) Eligible employees, executive Directors and non-executive Directors of the Company and its subsidiary companies with at least one (1) year of service and any Non-Malaysian employee who has served the Group for a continuous period of at least two (2) years shall be eligible to participate in the ESOS;

(iv) The allowable allotment that may be offered to eligible employees and Directors under the ESOS ranges from 5,000 to 800,000 ordinary shares;

(v) The persons to whom the options have been granted do not have any right to participate by virtue of such options in any other ESOS of any company within the Group so long as the scheme subsists. Subject to the Bye-Laws of the ESOS, the options granted are exercisable within the option period which is between one to five years; and

(vi) The new shares to be allotted and issued upon any exercise of the options will upon such allotment and issuance, rank pari passu in all respects with the then issued and fully paid-up shares except that the shares so issued will not rank for any dividends, rights, allotments or other distributions, the entitlement date (namely the date as at the close of business on which shareholders must be registered in order to be entitled to any dividends, rights, allotments or other distributions) of which is prior to the date of allotment of the new shares and will be subject to all the provisions of the Articles of Association of the Company relating to transfer, transmission and otherwise.

The Company does not transact in derivative instruments.

(c) Liquidity risk

The Group manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that refinancing, repayment and funding needs are met. As part of its overall liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities of a reasonable level to its overall debt position.

(d) Credit risk

Credit risk is controlled by the application of credit approvals, limits and monitoring procedures. Credit risk is minimised and monitored by limiting the Group's associations to business partners with high creditworthiness. Trade receivables are monitored on an ongoing basis via group management reporting procedures.

The Group does not have any significant exposure to any individual customer or counterparty nor does it have any major concentration of credit risk related to any financial instruments.

30. Financial Instruments (Cont'd.)

(e) Fair values

The carrying amounts of financial assets and liabilities of the Group and of the Company at the balance sheet date approximated their fair values due to their short term maturities.

The following methods and assumptions are used to estimate the fair values of these instruments:

(i) Investments in Unquoted Shares

In the opinion of the Directors, it is not practicable to determine the fair values of these financial assets due principally to a lack of quoted market price and the inability to estimate fair value. However, the Group does not anticipate the carrying amounts recorded at the balance sheet date to be significantly different from the recoverable values.

(ii) Investments in Quoted Shares

The fair value of quoted shares is determined by reference to stock exchange quoted market bid prices at the close of the business on the balance sheet date.

The carrying amounts of the investments in quoted shares have not been reduced to fair value as the impairment in the value of investments is not material. However, the Company believes that the carrying amounts represent the recoverable value in future.

(iii) Cash and Cash Equivalents, Amounts Due To/From Subsidiaries, Trade and Other Receivables and Payables

The carrying amounts approximate their fair values due to the relatively short term maturity of these financial instruments.

31. Segmental Information

(a) Reporting format

The primary segment reporting format is determined to be business segments as the Group's risks and rates of return are affected predominantly by differences in the products and services produced. Secondary information is reported geographically. The operating businesses are organised and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

(b) Business segment

The Group's operations, conducted in Malaysia, comprise the following main business segments:

(i) Timber processing
(ii) Vessel chartering
(iii) Investment holding
(iv) Log timber extraction

The Directors are of the opinion that all inter-segment transactions have been entered into in the normal course of business and have been established on terms and conditions mutually agreed between the relevant parties.

(c) Geographical segments

The Group's geographical segments are based on the location of the Group's assets which are in Malaysia. Sales to external customers disclosed in geographical segments are based on the geographical location of its customers as follows:

(i) Malaysia - Investment holding, vessel chartering and log timber extraction

(ii) North Asia - Timber processing

(d) Allocation basis and transfer pricing

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, liabilities and expenses.

Transfer prices between business segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment revenue, expenses and results include transfers between business segments. These transfers are eliminated on consolidation.
